

Euro-Par 2006

Dresden, Germany

29th August - 1st September 2006

Grid Village in conjunction with Euro-Par 2006

CoreGRID is the European Research Network on Foundations, Software Infrastructures and Applications for large scale distributed, GRID and Peer-to-Peer Technologies.

The CoreGRID Network of Excellence (NoE) aims at strengthening and advancing scientific and technological excellence in the area of Grid and Peer-to-Peer technologies. To achieve this objective, the Network brings together a critical mass of around 300 researchers from forty-two institutions who are conducting an ambitious joint programme of activities.

The Network is operated as an integrated European Research Laboratory (known as the CoreGRID Research Laboratory) having six institutes mapped to the areas that have been identified in the joint programme of activity. The Network is thus committed to set up this Laboratory and to make it internationally recognised and sustainable.
